

# QC CONCRETE DYE

■ QC CONCRETE DYE is a translucent, deep penetrating, permanent, micronized and non-reactive organic pigment coloring method used to provide life and character to any interior concrete surface.

■ Use QC CONCRETE DYE to create bold and exciting finishes when choosing from the 16 rich colors available in solvent-based (SB) or water-based (WB) formulations.

■ QC CONCRETE DYE penetrates deep into the concrete slab or overlay surface and permeates the pores of the substrate leaving no film or coating to be worn away.

# STANDARD COLOR SELECTIONS

## QC Concrete Dye applied to uncolored (gray) concrete

## QC Concrete Dye applied to uncolored (gray) QC Concrete Resurfacer

## QC Concrete Dye applied to uncolored (white) QC Concrete Resurfacer

QC CONCRETE DYE can be used with all QC Systems including QC COLORTECH - E™\*, QC COLORTECH™\*, QC COLOR HARDENER\*, QC CONCRETE RESURFACER\* and QC THIN-PAVE NI\*.

**LIMITATION:** This product is for interior use only, as surfaces exposed to UV light are subject to fading. Final project colors may differ significantly from the colors shown on this chart: QC CONCRETE DYE will produce a range of finish colors depending on many factors including, but not limited to, product formulation used, dilution liquid use, finishing techniques, mix designs, curing practices, base color, surface porosity, age and condition in existing concrete slabs, and sealer use.

Concrete Products*

# COLOR SELECTION GUIDE

## QC CONCRETE DYE

### PRODUCT NOTES

- QC CONCRETE DYE is for interior applications only as organic pigments can fade dramatically when exposed to UV Light.
- QC CONCRETE DYE is manufactured as a ready-to-use product both in water-based (WB) and solvent-based (SB) formulations that can be further diluted in the field with multiple types of liquid depending on the type of effect desired. These liquids include, but are not limited to, water, acetone, xylene, isopropyl alcohol and other mineral spirits.
- QC CONCRETE DYE is packaged in 1-pint, 1- and 5-gallon units.
- QC CONCRETE DYE is available in 16 standard colors.
- QC CONCRETE DYE can be used in conjunction with our signature stain systems, QC PATINA STAIN\* and QC CEMENTINT\*, to achieve hybrid color effects.
- QC CONCRETE DYE WB meets LEED requirements.
- In most cases, QC CONCRETE DYE SB can be sealed on the same day as applied.
- Coverage rate for QC CONCRETE DYE is approximately 500 square feet per gallon, per coat. Actual coverage rates may vary depending on texture, porosity, age and condition of concrete, application methods and other local conditions. Please refer to the QC CONCRETE DYE Product Information Bulletin for complete technical and application details.

### MAINTENANCE AND PROTECTION

QC CONSTRUCTION PRODUCTS offers a full range of high-end sealer systems for colored and stained surfaces to ensure the long lasting protection and enhanced color of the final project. The interior system consists of two coats with a durable base coat sealer, followed by three coats of a special high-solids top coat maintenance sealer.

#### Recommended Sealers:

##### ■ Base Coat Sealers:

- QC ULTRA SEAL\*
- QC ULTRA SEAL 100 VOC\*
- QC SOLVENT SEAL VOC III\*
- QC SOLVENT SEAL 18\*
- QC SOLVENT SEAL 23\*
- QC SOLVENT SEAL 27\*

- QC CEMSEAL\*
- QC PERMASEAL\*
- QC VOC 100 WB\*
- QC SURPRO WB Matte\*
- QC SURPRO SB\*

##### ■ Top Coat Sealers:

- QC INTERIOR FLOOR FINISH\* (*gloss*)
- QC NATURAL BEAUTY\* (*matte*)
